

UNREAL ENGINE 4.13 RELEASED!

Chance Ivey on September 1, 2016 | [Community](#), [Features](#), [News](#)

Unreal Engine 4.13 has been released and comes loaded with hundreds of updates as well as 145 contributions from the talented developer community via GitHub! This release contains huge additions to Sequencer such as import and export functionality, Alembic support for complex vertex animations, a brand new VR Template with baseline gameplay functionality and much more. See the full release notes [here](#).
